Your Chance to Buy a Home

I have decided to sell that part of the John H. Robertson Farm lying North of the highway, and will offer this tract on JULY 28 AT 3 P. M. AT AUCTION in FIVE and TEN Acre tracts, thus giving those desiring this valuable land a chance to own such of it as may suit them.

This is the very best type of soil, lies well, - fronts on hard surface road with electric current and telephone service. You can live here and drive to Lynchburg in 30 minutes.

For the benefit of someone who might want it all, will also offer it as a whole; selling it in parcels or as a whole as I may deem best.

TERMS: 1-3 cash, balance 2 and 3 years. One tract will have good 3 room house.

I also have several farms for rent and others for sale.

A. R. Harwood

2 Farms for sale at auction, July 21, 1934, at 2 o'clock in front of Post Office, Appomattox, Va.

FIRST: Holmsie Inge Farm. 200 acres, good condition. 1 tobacco barn. About 150 acres in small timber. Rest ready to cultivate. About 4 miles from hard road near Evergreen.

SECOND: At same place, 15 minutes later. B. M. Ferguson Farm. 150 acres. Very good home, 3 tobacco barns, about 75 acres cleared. Will make someone a splendid home.

George F. Abbitt, Jr., Trustee

Reunions Held

Approximately 110 people, children, grandchildren and great grandchildren, neighbors and friends of Mrs. A. E. Coleman gathered at the ancestral home near here July 4, for the annual family reunion. After the basket lunch at noon, a delightful morning spent on the beautiful dinner was served under the shade of the trees. Following the dinner brief talks were made by Rev. W. M. Thompson, Rev. W. S. Rogan and Rev. E. F. Campbell.

Children present with all or a part of their families were: Joe, George, Mace; Luther and Randolph; Mrs. A. R. Ferguson, Mrs. W. E. Baldwin, Mrs. W. A. Chernault and Mrs. R. T. Hollycross.

A reunion of the Harwood family was held last week, July 2 to 9, at the old Harwood home, where J. W. Harwood settled 60 odd years ago when he first came from England. Those present during the week were: Mr. and Mrs. A. R. Harwood, of Appomattox; Mrs. J. R. Abraham, of Alexandria; Mr. and Mrs. S. G. Harwood, of Victoria; Mr and Mrs. J. W. Haden and family, of Fife; Mr. and Mrs. J P Harwood, of Richmond; Mr. and Mrs. F S Harwood and son, Kieth, of Keyport N. J.; Mr. and Mrs. Wilson Hix and family and Mrs. J. T Hix and daughter, of Hixburg; Mrs. W. K Graves, of Bluefield, E. W Harwood, of New York was the only who could not be present.

It has been announced that dark tobacco markets will open this year on November 7.

There will be a baseball game here Saturday Afternoon, it was announced this morning.

Miss Louell Blackburn, of Lynchburg is spending sometime with her grand mother, Mrs. Jessie Johnson.

Mrs. W. D. Griggs and children, of Hopewell are visiting her brothers, C. M and S. J. Evans.

HAIL INSURANCE

Hail insurance long ago became a necessity for the business minded farmer. Year after year we have been protecting growers in this county.

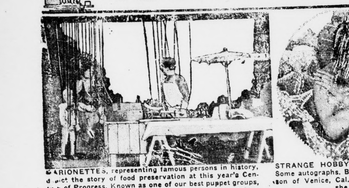
We would like to add you to that list. The cost is little. Let us take the risk.

See us before the Hail visits you.

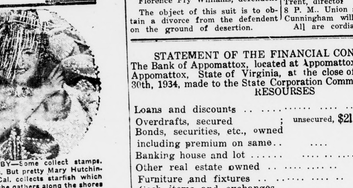
J. A. Burke & Company,

Appomattox, Virginia

The Camirror



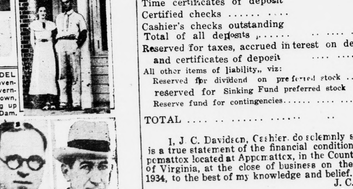
MARIONETTES, representing famous persons in history, await the story of food preservation at this year's General Federation of Progress. Known as one of the most unique marionettes present their popular show "From Cave to Kelvinator" five times daily in their air-conditioned theatre which is part of the exhibit of Kelvinator Corp. in the Electrical Building. At picture of the "Gay Nineties" scene shows the marionettes recalling the days when ice was a delicacy.



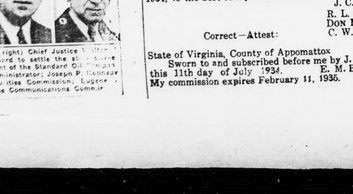
STRANGE HOBBY—Some collect stamps. Some autographs. But pretty Mary Hutchinson of Ventura, Cal. collects starfish which she gathers along the shores of the Pacific. Some of the starfish measure from 12 to 24 inches in diameter.

AND NOW, BEAUTY IN BEER BARRELS!—Modern beer comes to us in sanitary steel barrels. Now the brewers are going a step further by providing the steel kegs with the most brilliant of colors. Those illustrated, from one of the country's largest breweries, are in bright silver and flashing blue. The feminine influence perhaps!

IN THE B. G.—After two years' research, one remarkable use for sludge or cellulose has been perfected by Union Bag & Paper Corp., N. Y. City. Thirty million chocolate cups, lids of coffee shipping containers contain the sludge instead of wood pulp. The new product bars without a single drop of breakage reported during the two year period. Used cups range in size from 2 ounces to 10 ounces for soup, coffee or container for wedding.



FIRST NEWLYWEDS IN "MODEL TOWN"—Mr. and Mrs. W. G. Stevenson, on porch of their home in government's first important Model Town, Norris, Tenn., which is springing up as work progresses on the Norris Dam.



President Roosevelt appoints (left to right) Chief Justice James A. Moffett, former Vice-President of the Standard Oil Stacy, Chairman of the Impartial Board to settle the silk strike in New Jersey, as Federal Housing Administrator; Joseph P. Kennedy of New York, Chairman of the Securities Commission; Lupton Sykes, of Mississippi, Chairman of the Communications Commission.

We wish to thank our many friends and relatives for the kindness and sypbathy shown us during the illness and death of our mother and grandmother.

Mrs. J. E. Rogers and children

Order of Publication.

In the Clerk's office of the county of Appomattox on the 3rd. day of July, 1934:

John W. Williams, Plaintiff
Against
Florence Fry Williams, defendent

The object of this suit is to obtain a divorce from the defendent on the ground of desertion.

And an affidavit having been made and filed that the defendent, Florence Fry Williams is not a resident of the state of Va., it is ordered that she do appear within 15 days after due publication hereof and do what may be necessary to protect her interests in this suit. And it is further ordered that a copy hereof be published once a week for four successive weeks in the Times Virginian, a newspaper published in the county of Appomattox, that a copy be posted at the front door of the Courthouse of this County on or before the 16th. day of July, 1934, that being the next succeeding Rule day after this order was entered, and the Clerk mail a copy hereof to each of the said defendents to the post office address given in the affidavit herein, and file a certificate of the fact in the office of the case.

A Copy—Teste:
C. W. Smith, Clerk.

Policeman Loses 62 Pounds of FAT

Mr. J. W. Frost writes: "I've used 7 bottles of Kruschen and reduced from 272 to 210 lbs. with no ill effects whatever. In fact I feel much better than I have for some years. As a police officer I recommend Kruschen to brother office's to keep in regulation weight and health."

Kruschen is the safe, healthy, sensible way to lose unhealthy, surplus fat —simply take a half teaspoonful every morning in a glass of warm water —you'll feel so good —so energetic. You'll gain in strength and ambition —you feel years younger and look it. By reducing excess fa ty you'll be apt to live years longer

One bottle lasts 4 weeks. You can get Kruschen Salts at any drug store in the world.

Rev. Robert Doresppike, his wife, their 4 sons: Loryane and Wayne, Robert Jr. and Dale, of Johnstown, Pa. and their old friend Rev. V. Hoston was pastor of a Wayside church in Canton, Ohio, and there met Mr. Doresppike. Later Mr. Buxton started a camp meeting in Michigan, the home of Mr. Hasenkrau and there Miss Anna Hasenkrau and Mr. Doresppike met and in due time, Mr. Buxton was notified to come and marry them. This is Mr. Buxton's first visit to Virginia. He was a welcome visitor in the Times Virginian office while here.

Mr and Mrs Roy Harvey, of Crewe were guests of Mr. and Mrs. S. J. Evans Sunday.

Housewives! It's Canning time. Play safe . . . use

TIMES-VIRGINIAN

A Democratic Weekly For Historic Appomattox And Buckingham Counties

5 CENTS COPY — $1.50 PER YEAR — Appomattox, Virginia. — Thursday July 19, 1934 — ESTABLISHED 1892.

Father ARKLEAF'S Column

Appomattox business places have been on a painting spree recently. And didn't think the town will look better.

Senator Wm. G. McAdoo's wife got a divorce in twenty minutes last week claiming that the climate in Washington D. C. didn't suit her. Washington if the California folks are wondering if the Chamber of commerce didn't pay her alimony.

Another California wife seeks a divorce because her husband played Spin Me Mae West in a recent movie. Reckon the part, we guess.

Of course he might figure it was all in.

Mother and Dad were up over last week end. And while here Dad got hogged. Father Darkleaf saw his grand old civil War veteran Pal, H. Coleman and stopped to inquire how Dad is getting along. Dad passed Lee too' says Dad, where he is he gets a good old Southern meal.

To H. L. M— will really get to his grad article next week.

Local lady says it nearly breaks her heart —swinging at golf balls and missing— but doesn't hurt when she connects.

Doc Charlie James just back from Alabama says it got to 107 down there. Ain't cool off much here. Ouch.

Mother Brightleaf has just found out that my hair (both strands) hasn't been shampooed since I was married—so, so long and let's get that over with.

So many folks refer to our sister town to the east as "Purgitsburg" this week someone (Not you, of course) calling it Paplina.

After Four Years Finds Spoon Hook With Fish

Hoquiam, Wash. — Robert Fulton has been looking for a spoon hook he loaned Frank Silva four years trying to get back a spoon hook he loaned Frank Silva. Recently he received it from the Chehalis river with a cutts barge Chehalis salmon securely hooked. Silva, fishing from a boat, hooked a large fish, but the line snapped.

Falcon, fishing near the spot, did not get a strike but on pulling up found a 50-foot fish line fouled under the boat to the rope. He pulled on it and received a 25-pound salmon. Both anglers agree on their stories.

Moslems File Suits to Protect Beards

Bombay.—An English court has to decide an injunction suit brought by a number of Mohammedans against High Priest Mullah Sahib, who has excommunicated various members for having shaved off their whiskers. The Moslem members seek to enjoin the high priest from interfering with their beards.

Dog Guard King

Madrid.—When King Alfonso returned from a recent visit to England he brought with him 24 greyhounds. They accompany him wherever he goes, and have already substituted the services of his bodyguard.

Moons of Planets

Jupiter has four large and five small satellites; Saturn has ten, while Mars has but two, so far as discovered, but the planets may have moons not yet identified. One of the first discovered was made by Galileo with his crude telescope, early in the Seventeenth century, was that Jupiter had four moons. When Galileo reported his discovery few people believed it. One scientist refused to even look through Galileo's scope. He died soon after and Galileo remarked that he hoped this skeptic had seen those moons on his way to heaven. It was not until nearly three centuries later, in 1892, that the other moons of Jupiter were found. Huyghesz, the Dutch astronomer, discovered the first of Saturn's moons, in 1655, while the tenth was found in 1905. Nearly all the discoveries of these small moons have been made in the United States, as we possess the largest telescopes.—Pathfinder Magazine.

Largest Reindeer

The world's largest reindeer live on the island of Sakhalin, which lies between the Sea of Japan and the Sea of Okhotsk off the coast of Siberia. A leading Russian reindeer breeder says the biggest ones ever found in the Sakhalin herds had a weight of approximately 470 pounds, which was nearly twice the weight of ordinary reindeer. Females of the Sakhalin reindeer average around 290 pounds but specimens weighing about 360 pounds have been found in the herds.—Literary Digest.

Clerk's Office Now Being Repaired Here

Repairs are being made to the clerk's office of this county.

The front of the building is being repaired and the woodwork being painted. A new floor floor is being placed in the office adjacent to that used by the clerk.

The improvements are in keeping with the general plan of repair and beautification recently completed at the court house.

Five Point Record For Schools Given

Show Nice Increases Over Last Year, Supt. Burke's Report Reveals

County Average Was 28.1

The five point record of pupils in Appomattox county schools for the 1933—1934 session was announced this week by superintendent J. O. Burke.

An improvement over the previous session is shown by the report. An impressive total of 535 or 32.7 per cent of the white enrollment belong to the five point group. This compares with 27 per cent last year, 124, or 18.1 per cent of the colored enrollment in the point; ocmpared with 13 per cent last year.

The county average this session was 28.1, ocmpared with 23 per cent last year.

The following are the records of the individual schools, the first figure being the enrollment, the second the number of "five pointers" and the third the percentage:

People Could Not Live Long Without Bacteria

We depend on certain kinds of bacteria for many of our foods. Every piece of cheese is produced by a different kind of bacteria. Butter is the result of another kind. Linen is the finest left after bacteria have "rotted" away the soft parts of flax plants. Cider will never become vinegar without certain bacteria dependent on certain bacteria for supplying nutrients. Yeast, and all fermentation, in baking that is bread dough, is because of the work of bacteria, a writer in the Minneapolis Journal.

Man could not live long without bacteria. Every animal and every vegetable, plant, all the garbage, sewage and dirt of large cities are finally manufactured since the world began. Without bacteria to do this work it would all be piled up on the earth, and the rotting and decaying work of bacteria.

Natural Well of Ice Found in South Dakota

Rapid City, S. D.—A natural ice crystal four hundred feet underground, from which crystal four blocks of ice can be cut in hottest weather, is occasioning much interest here. The well is located at the gypsum plaster mill at Spearfish, seven miles north of here.

In digging for gypsum at the plant, workmen sunk a shaft, at the end of which a large hole was excavated in taking out gypsum. This filled with water to a depth of eight feet, which freezes in summer and is coated with thick ice.

Woman Sues Post Office for Premature Suicide

Belgrade.—The wife of a workman is suing the post office authorities for having delayed the news that her husband won a big prize in a lottery. She claims that her husband's suicide was a chagrined, committed suicide through poverty and lack of work. If he had received the news 15 minutes earlier he would not have ended his life.

Iron Stomach Goes Back on Spanish Egg Eater

San Sebastian, Spain.—A bet that he could eat ten hard-boiled eggs and then drink half a litre of vitriol cost a street sweeper known as "Alleguero" in the frontier village of Passagerro in the Basque country dear. He tried it, it proved fatal. Tradition has it that besides eating eggs with their shells, Alleguero used to eat rocks, pieces of wood, and that once upon a time he made a meal off a watch and chain, without any detriment to his health.

Bill Filed to Keep Woman From "Making Faces"

Boston.—A bill to prohibit women from making faces at the plaintiff, Angeline Bindo of the same city.

Kills Nine Mountain Lions

Prescott, Ariz.—Giles Gowick, government hunter of predatory animals in this district, has killed nine mountain lions during the last month, he declared on a visit here recently.

Girl Bites Passerby After Dog Bites Her

Berlin.—A young woman who was bitten by a mad dog ran into the streets two hours later and bit and scratched 15 pedestrians in Gallatz before recovering. The hydrophobiac lunacies, recently reported, the woman died. Two of the persons she attacked were in critical condition.

No Room for Strangers in This Man's House

Stuttgart, Ark.—No more rooms has Lee McDonald to rent to strangers. As McDonald was leaving his house for the day a stranger asked for a room. He told McDonald with a check.

Returning that night McDonald found the newcomer has ransacked his house. Also the check came back.

Motorcycle Dash to Pole Plan of Airman

Oslo, Norway.—Maj. Tryggve Gran, Norwegian airman and explorer, who was a member of the scientific staff of the Scott expedition in 1901, is planning a trip to the South pole by motorcycle.

He plans to disembark on the west side of Ross sea and proceed, preferably by airplane, to the pole before beginning the trip by motorcycle.

Five Weeks' Old Boy Flies to Grandmother

Newark, N. J.—The youngest air passenger ever seen here landed at Newark municipal airport recently in the arms of Robert Ebert, son of O. P. Ebert, pilot of the Curtiss Flying Service at Valley Stream, L. I., and Mrs. Ebert's mother five weeks ago at Nassau hospital.

Removes Dream Site Hill From Lot and Gets Sued

Alameda, Calif.—Steven Anderson, carpenter, selected a hillside overlooking San Francisco bay as a home site for his "dream house," but the other day he discovered it had been shoveled away so now he is suing Max Rosenberg, grading contractor, for $6,430. He alleges the contractor removed 2,000 square feet of dirt without permission.

Stops Train for Cigarette

Romford, England.—John Jordan, a soldier, wanted a cigarette, so he stopped an express train on which he was riding and didn't mind paying the $5 fine.

Perpetual Tree Is Found on Farm

Bethelem, Conn.—Anos Lake, farmer, boasts an apple tree on one branch of which he recently found a ripe apple, a green apple and a bud just beginning to open. Anos is seeking the secret of perpetual apple growing on one tree.

An Army of Children

The membership in the Junior Red Cross last year was 5,628,865 boys and girls in schools, private, public and parochial. They enjoyed volunteer work in hospitals and for orphans, the aged and crippled, and also aided their schoolfellows by providing attention for their eyes, purchasing their glasses, and giving many other types of service to them. The Juniors also did school work by carrying on correspondence with children in other nations, the exchange of portfolios with school children in other nations.

Tired Hired Man Rests in Path of Tractor

Rabbit Lake, Sask.—Not feeling well, Percy Walker lay down in a furrow to sleep. Now he feels worse. A tractor ran over him on the farm of Ezet Page, where he had been employed to cut brush. Percy is in a hospital suffering from concussion and shock, but with no bones broken.

Woman Kicks at Dog Tax for Wooden Canine

Lowell Mass.—Mrs. Florence Underwood protested so vigorously when she received her dog tax bill that a city employee was sent to her home to investigate. The woman explained that the only dog she owned was a wooden one which decorated her lawn. The assessment was rescinded.

Airplane Saves Life of Strangling Baby

Alameda, Calif.—A thrilling automobile airplane flight from Reno to the San Francisco bay airdrome here was recorded with a flight lasting the life of two-year-old Henry Baker.

The boy swallowed a button while playing at the Reno home of his parents, Mr. and Mrs. Herman Baker. To prevent strangulation, doctors said an immediate operation was necessary. When the plane, piloted by Frank Cochran, landed here, the boy was taken to Lane hospital, where the operation was successful.

Man Seeking to Beat Solomon's Nuptial Mark

El Paso, Texas.—"I'm out to beat King Solomon at his own game—the marriage game."

That's what Bruce W. Steele, dashing young El Paso promoter, says is his ambition. He has just asked the courts to dissolve his fourteenth matrimonial alliance. Of course, he's got a long way to go to overhaul the sultant wise man—but he's got a fast start.

"Not one of my wives left me because she ceased to love me," Steele explained. "They simply went away because they were jealous of my success with other women.

"Winning women is the easiest thing in the world—once you know how. All you have to do is find out a woman's weakness, play up to that and you've got her."

Money Order Charges . . .

On and after August 1 all postmasters are required to collect a fee for cashing money orders drawn on offices other than their own. The fee will be the same as that charged for issuing the order. This announcement was made this week by postmaster E. LeRoy Smith.

Is Fined $10

Tuesday trial justice J. R. Horsley held court here and fined Ed Flowers, colored of Spout Spring $10 and cost for unlawful use of a truck belonging to S. W. Alvis.

Man Hires Sea Divers to Search for Lost Gem

San Francisco, Calif.—Marion sapphire, a precious jewel, does not possess unlimited monetary resources if the bottom of San Francisco bay might be radically altered.

Herman went for a cruise on the bay in his small launch and had to work on the motor. To protect his $1,250 diamond ring he slipped it into a hip pocket under a handkerchief. The latter required to repair the engine was considerable and he perspired. Naturally he pulled the handkerchief from his pocket to wipe his brow and the valuable jewel came with it, being flipped overboard.

The broker, instead of hewailing his loss, hired Theodore Vick and Frank Vladimir, deep sea divers, to go to the bottom of the bay, scoop up a couple of cans of mud and bring them to the surface. He inspects each bucketful, but many hours of such procedure was unsuccessful.

Still Not Enough

Appomattox tobacco last season brought an average price higher than the state average; but that was hardly a living price. The state average was $6.86 and the Appomattox average was $8.04.

It is often claimed that this county grows the finest dark tobacco in the world; but the problem is to find good buyers!

Explains Why

According to the national fertilizer association, the principal cause for the high cost of fertilizer prices is a substancial increase in the manufacturing cost. A survey shows that the cost of materials, bag and labor have all advanced.

Part of this increase can be traced to the Fertilizer Code.

Handled Plenty

The Dark Fired Association sold a total of 10,327 961 pounds of the 1933 tobacco crop for its members.

Nearly Though

Work is nearly complete on the new service station of the H. M. Burge Co. Inc., located just outside of town.

Cars Collide

A Rash Co. truck and a Dodge sedan from Lynchburg were in a collision opposite the entrance to Tonawanda Lake Monday afternoon. The sedan turned over a head but none of the occupants were injured.

Leaf Checks Go To Signers

564 Farmers Now Getting Reduction Money

A total of 564 farmers in this county either or will receive a sum of $10600 for tobasco crop reduction contracts. To date checks have been issued to 150 farmers. Ithers are being received daily.

Reduction benefit payments are paid at the rate of $12 per acre for land left out of production.

In addition to this total of $0600 local farmers are about to receive approximately $16000 representing a payment of seven and one- half per cent on the 1933 crop. Thus Appomattox farmers are now receiving some $25000.

Sharing in the production control fund, if the government caused our farmers to receive $3000 in wheat benefit checks.

It is estimated that only 75 tobacco growers in this county have failed to sign the tobacco contracts. These can sign before July 28.

Appomattox Farmers Getting $25,000 Reduction Payments

WATCH THE LUNCHES

When you go on a picnic it's a mighty good plan to keep an eye on the lunch basket.

A party came down to Lake Tonawanda at Spout Spring last week and on a picnic. The picnic ended up in local court here when Garland Kirby and Owen Stevens; of Lynchburg were fined $10 and costs on charges of pilfering the lunches.

The meeting at Appomattox will be the Buckingham CounheJJJ Ghmfi be held at the county court house. The Buckingham county meeting will be held at the Buckingham court house.

C. T. Moses is the present director for this county.

Man Hires Sea Divers to Search for Lost Gem

San Francisco, Calif.—Marion sapphire, a precious jewel, does not possess unlimited monetary resources if the bottom of San Francisco bay might be radically altered.

Herman went for a cruise on the bay in his small launch and had to work on the motor. To protect his $1,250 diamond ring he slipped it into a hip pocket under a handkerchief. The labor required to repair the engine was considerable and he perspired. Naturally he pulled the handkerchief from his pocket to wipe his brow and the valuable jewel came with it, being flipped overboard.

The broker, instead of hewailing his loss, hired Theodore Vick and Frank Vladimir, deep sea divers, to go to the bottom of the bay, scoop up a couple of cans of mud and bring them to the surface. He inspects each bucketful, but many hours of such procedure was unsuccessful.

Woman Kicks at Dog Tax for Wooden Canine

Lowell Mass.—Mrs. Florence Underwood protested so vigorously when she received her dog tax bill that a city employee was sent to her home to investigate. The woman explained that the only dog she owned was a wooden one which decorated her lawn. The assessment was rescinded.

Airplane Saves Life of Strangling Baby

Alameda, Calif.—Steven Anderson, carpenter, selected a hillside overlooking San Francisco bay as a home site for his "dream house," but the other day he discovered it had been shoveled away so now he is suing Max Rosenberg, grading contractor, for $6,430. He alleges the contractor removed 2,000 square feet of dirt without permission.

Stops Train for Cigarette

Romford, England.—John Jordan, a soldier, wanted a cigarette, so he stopped an express train on which he was riding and didn't mind paying the $5 fine.

Perpetual Tree Is Found on Farm

Bethelem, Conn.—Anos Lake, farmer, boasts an apple tree on one branch of which he recently found a ripe apple, a green apple and a bud just beginning to open. Anos is seeking the secret of perpetual apple growing on one tree.

An Army of Children

The membership in the Junior Red Cross last year was 5,628,865 boys and girls in schools, private, public and parochial. They enjoyed volunteer work in hospitals and for orphans, the aged and crippled, and also aided their schoolfellows by providing attention for their eyes, purchasing their glasses, and giving many other types of service to them. The Juniors also did school work by carrying on correspondence with children in other nations, the exchange of portfolios with school children in other nations.

Tired Hired Man Rests in Path of Tractor

Rabbit Lake, Sask.—Not feeling well, Percy Walker lay down in a furrow to sleep. Now he feels worse. A tractor ran over him on the farm of Ezet Page, where he had been employed to cut brush. Percy is in a hospital suffering from concussion and shock, but with no bones broken.

Our Part in Government

TODAY men of all nations are evidencing deep interest in the affairs of their respective governments. This progressive attitude has undoubtedly resulted from the fact, though not always recognized, influence of the climate of God, the power of God, the power of God all men are equal. This doctrine can have application to him as well as to every other person. However, to everything of value, there is a price to be paid, and many times it is the indifference of the people to the affairs of the nation by the neglect and the retrenchment of the soul heir.

Meaning of Christian Science

Christian Science enables one to meet these subjects in their true light. As men begin to grasp the truth concerning God's government, and prove their understanding by bettering individual thinking, they find themselves willing and ready to accept the responsibilities of useful citizenship.

Many opportunities are thus made available by spiritual understanding. This understanding includes intelligent comprehension, enlightenment, alertness. One who through Christian Science seeks to understand his government, its intelligent standards, and aims, has an incentive to measure its acts. He is not misled by false promises, nor is he moved by false prejudice, or personal influence. He casts his ballot on the side of integrity and wisdom. Moreover, in this way he serves above the limitations of a merely material sense of government and begins to demonstrate the truth concerning real government, even the divine right of God. Through understanding the spiritual nature of man as an intelligent son of an all wise God, the perfect Mind.

Charity, too, is an open door to opportunities for serving. It may be described as a true sense of love. Charity is the attitude which rejoices in the certainty of the ultimate triumph of right, even when evil seems to be succeeding. To charity, evil is only a deceiving, false sense which may be progressively replaced with the true sense of being as spiritual. When the searchlight of critical judgment is on the nation's functioning and the keeping aglow in his own thought the light of wisdom, fairness, patience, and love he will be able to see not only the errors to be eradicated, but the good already accomplished.

Many doors to service are opened by the qualities developed in the study of Christian Science, as a way opens for using his talents to do with such opportunities as present themselves. Whether it be in the home, in the church, the school, or the shop, Christianity brings to bear upon these activities the power of a high idealism. It means practicing Jesus' Golden Rule, "All things whatsoever ye would that men should do to you, do ye would that men should do to you." The God of Christian Science is a good citizen he must practice the principles of that founded by Mary Baker Eddy. That this religion is the Science of Jesus' teachings has been proved many times by the works of those who have known and who have worked through the spiritual understanding of God's law. He who practices Christian Science, in ways small or great, is well prepared to take his place as a servant of mankind. Speaking of "a knowledge of the Scriptures and Health with Key to the Scriptures" (p. 118), Mrs. Eddy writes: "It is the duty of the right activities of civic government. The doorway to the highest service is opened through the power for good in true prayer. Prayer founds character, the divinely legal standard Rock; Christ, the true idea of God, the saving foundation for all superstructure of harmonious living. True prayer yeasts, and then leavens with good. Key to the Christian Scientist prayer is not a mere petition, but for the whole world. In Christian Science, prayer is the most reverent aspiration; it is spiritual vision. Prayer is that mental attitude which rests on the conviction that God, Love, is the only cause and creator, and that every real effect is Godlike. Prayer breaks the mesmerism of beholding material sense, and begins to demonstrate the truth concerning real government, even the divine right of man as an intelligent son of an all wise God, the perfect Mind.

Many men of all nations are evidencing deep interest in the affairs of their respective governments. This progressive attitude has undoubtedly resulted from the fact, though not always recognized, influence of the climate of God, the power of God, the power of God all men are equal. This doctrine can have application to him as well as to every other person. However, to everything of value, there is a price to be paid, and many times it is the indifference of the people to the affairs of the nation by the neglect and the retrenchment of the soul heir.
